**LOVELAND GOLDFISH FARM
AND AQUATIC NURSERIES**

Mr. Ralph B. Shaw, Librarian

Washington 25, D. C.

Visitors Welcome!

The picturesque gateway of the Loveland Goldfish Farm and Aquatic Nurseries has for many years been a landmark on the C.C.C. Highway. Located just twenty miles from downtown Cincinnati our aquatic nurseries, gardens, and show rooms have been a mecca for fish and plant lovers for twenty-nine years. Thousands of visitors have enjoyed wandering through our plant filled greenhouses, through our Tropical Fish Display Rooms, and around our goldfish ponds and lily pools outside. Many faces have become familiar, and we have made many, many friends of our customers who come regularly to see us.

"Visitors are Welcome"—and we mean it! When you come out to see us—bring the family. Whether you come to look or to shop, you are welcome to stay as long as you like and to roam wherever you wish. In our large modern greenhouses, in a tropical atmosphere, you will see growing in concrete pools thousands of Tropical Fish, Snails, and underwater plants. In addition to "Things Aquatic" we also grow many unusual and different varieties of unusual house plants, cacti, African Violets, Terrarium, and display plants. In our Tropical Fish Display Room you will see in large and small tanks many varieties

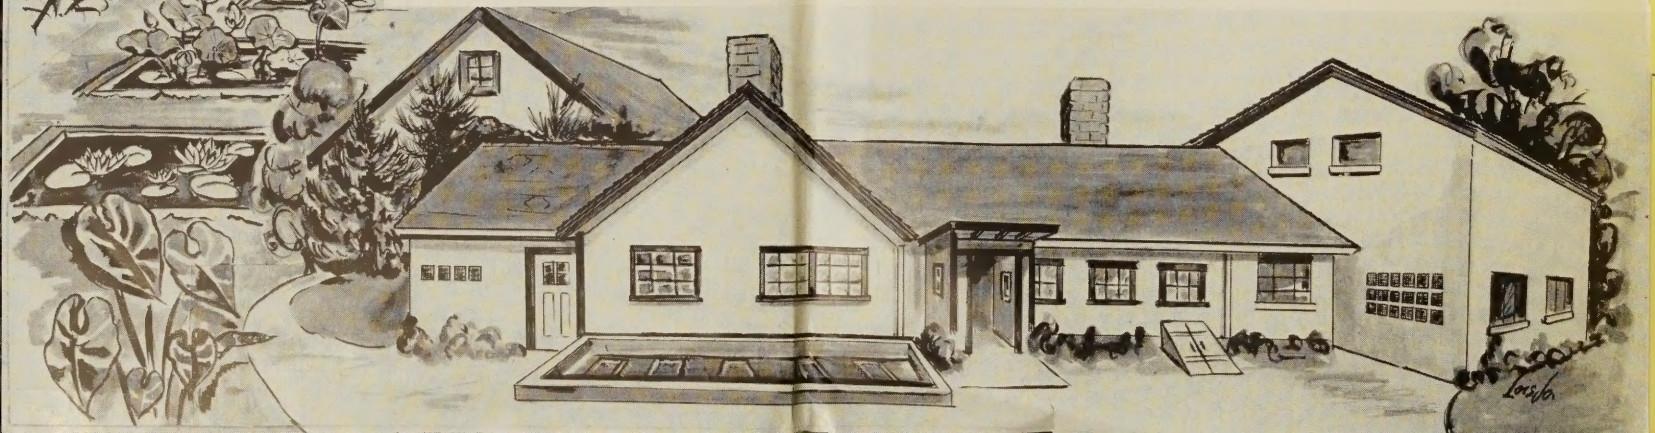

of Tropical Fish. Many of these tiny creatures, emblazoned with all the colors of the rainbow, are imported from distant parts of the world.

Our warehouse and stock rooms are filled with every accessory necessary for your aquarium; all the items we list here in our catalog are on display for you to see and choose from. Our competent staff is ready to assist you in making your purchases or to answer any question you may have pertaining to your aquarium, plants, or pool.

Thank you for sending for our catalog—we sincerely hope that you will enjoy it. To those of you who have already discovered the pleasure, beauty and enjoyment of "Things Aquatic" our catalog may only be a price list and booklet of information. To those of you who have not, we hope that our catalog may be the key opening the door to hours and years of untold beauty and pleasure from an aquatic hobby in your own home.

Ten million people can't be wrong! Tropical Fish as a hobby is one of the most popular and fastest growing hobbies in our country today. The number of hobbyists and fish enthusiasts are constantly increasing because dollar for dollar there is more and lasting pleasure for the whole family.

Entire contents of this catalog copyrighted 1953—Loveland Goldfish Farm and Aquatic Nurseries, Loveland, Ohio.

HOW TO ORDER

These Terms and Directions Apply To Retail Orders Only

Order early—our stocks are complete now—use this order sheet—additional order blanks will be sent with your order or on request. Print your name and address plainly on order blank—order by number as well as name of item from our catalog wherever possible. To facilitate handling do not write letters on same sheet as orders.

REMITTANCE—Should be made by post office or American express money orders, bank draft, or your personal check. We do not recommend that you send currency or coins in the mails.

No C. O. D. orders accepted.

Minimum order from our catalog \$1.00.

If shipment is to be sent via Parcel Post—add 10% to your order to take care of handling and postage. Orders for \$2.50 or less require 25c extra for postage and packing. This amount must be added to amount of order. West of the Rockies add 35c.

If no allowance for Postage accompanies your order we shall assume that you wish your order shipped Railway Express—shipping charges collect.

HOW WE SHIP—

Railway Express—Aquariums, Stands, Aquarium Gravel, Aquarium Cement, Goldfish, Glassware items as indicated, Soil, and other large, heavy or bulky items are shipped via Railway Express, shipping charges collect. Other items ordered with above listed items can also be shipped Railway Express.

BAD ORDER REPORTS

If your shipment via Railway Express arrives damaged, spoiled, or dead on arrival, accept shipment and Express charges. Have the delivery man or your Railway Express agent give you a "Joint Inspection Bad Order Report" stating your loss or damage—condition of contents—and box. If shipment was delayed enroute state length of time enroute—report all evidence of rough handling. In the case of goldfish state whether loss was due to can being overturned or damaged to cause water leaking or loss.

We do not guarantee replacement of any items shipped Railway Express unless we receive a copy of the Bad Order Report in the event of loss or damage.

GOLDFISH ORDERS AND SHIPMENT

All goldfish orders must be shipped Railway Express—if additional plants or merchandise are ordered with goldfish they can be sent at the same time along with the goldfish. No orders for goldfish accepted if shipping distance is over 1,000 miles.

We guarantee live arrival on all goldfish orders—if your shipment should arrive in bad condition get a "Bad Order Report" from the Express company—mail this to us—and return the empty shipping can—with these—we can replace "free" your loss. The right to replace or refund the purchase price is reserved to our discretion.

All cans which require a deposit must be returned prepaid to us at once—the deposit does not cover the cost of our cans—we would rather have our cans than your deposit—please help us!

PARCEL POST SHIPMENTS

We ship Parcel Post all small items when sufficient postage is included. All easily broken items are shipped Parcel Post insured. If your order is shipped insured and arrives damaged file claim with post office and send us this claim form for completion so that we may replace loss or damaged merchandise.

For safe speedy shipment of Aquatic Plants or other plants we strongly suggest Parcel Post Special Delivery. If Special Delivery shipment is desired add 15% to amount of your postage allowance.

Prices apply only to the United States proper.

GUARANTEE

We ship good stock carefully packed. All goods are guaranteed to reach you in good condition. If shipment should arrive in bad condition—be sure to receive a Bad Order Report from the Express Co.—stating condition of package and of fish—condition of water and if delayed stated thereon. Loveland Goldfish Farm makes no warranty, expressed or implied, with reference to any merchandise sold by us, except as to certified size and quality, and that all stock shall be true to name and our liability in any case shall be limited to the replacement of such items as are short or damaged.

If any of your friends desire one of these catalogs just have them drop us a card, we will gladly mail one to them.

There Is Something About An Aquarium

A living picture—an aquarium fits in any room, unobtrusive to any color scheme or decor, demanding only a semi-permanent position on a table, bookcase, desk, aquarium stand, or built into a wall.

In your home, in the office or waiting room, and in the school, an aquarium provides an enduring and educational hobby that is fascinating to both young and old. Here is pleasure, beauty, and relaxation from observation of your finned pets; pleasure from which you will never tire. Here is nature at your elbow; in your aquarium, an ever changing panorama of undersea life and beauty. Vivid rainbow colored fish of odd shapes and sizes contrasted beautifully against the peaceful green background of graceful aquatic plants arranged to suit your aqua-scaping desires. Watch them live, watch them grow!

To those of you who have already discovered the pleasure, beauty, and relaxation of "Things Aquatic" our catalog may only be a price list and booklet of information. To those of you who have friends who own an aquarium that you have admired and aspired to own one like it, we hope that our catalog may be the key opening the door to hours and years of untold beauty and pleasure from an aquatic hobby in your own home.

Why Things "Aquatic"

For years we have wondered at the lasting interest in keeping fish in the home. We have asked ourselves and our customers again and again why so many people have made their hobby "Things Aquatic." The answer lies not in a simple statement, but in several.

Young or old, an aquarium is enjoyed by everyone. Here is pleasure and a hobby you are never too old to enjoy, one that you will never tire of. Physicians point out that a man's hobby is an important means of complete mental diversion and physical relaxation. They encourage everyone

Successful Aquarium Management

Keeping fish in the home is simple and easy provided a few common sense rules are followed. In placing the aquarium of your choice, all that is required is a semi-permanent location away from chilling drafts or excessive heat. Good light, not necessarily sunlight, is essential to plant growth and a healthy aquarium. When setting up a new aquarium the gravel should be thoroughly washed and the water in the aquarium conditioned or aged before introducing the fish. Allow the water to stand at least 24 hours or use "Water Rite Tablets" for the purpose of eliminating chlorine and other water purifying chemicals which are harmful to fish.

Here are a few simple rules; if adhered to your troubles will be minimized and pleasure from your hobby increased and longer lasting.

1. Don't over feed—cloudy water—gravel turning black at the bottom from decaying, uneaten foods are positive danger signals. Don't ignore them. Overfeeding causes the water to become unfit for the fish to live in.

2. Don't overcrowd—too many fish use up the oxygen content of the water faster than it is replaced and cause the fish to die. An easy rule to remember—two fish per gallon of water.

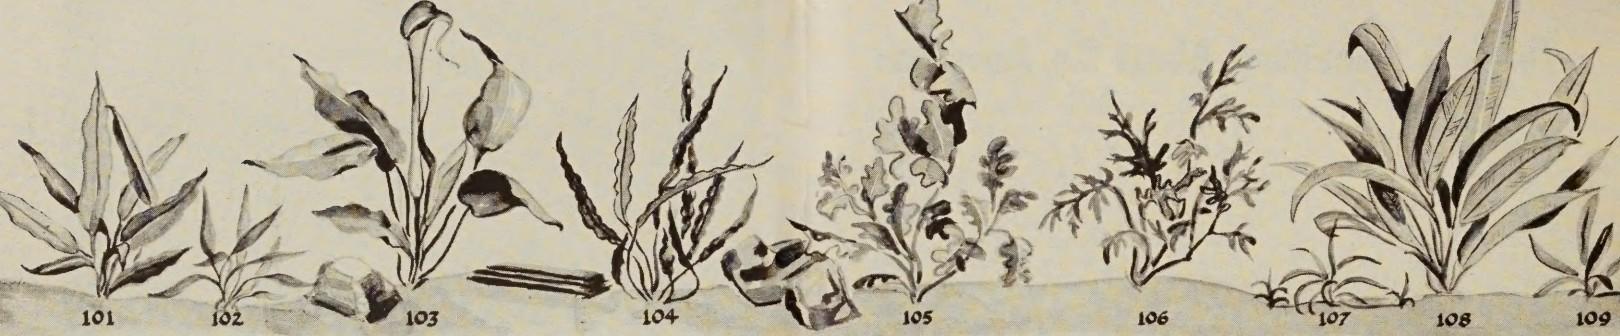

to adopt a hobby. For the adult an aquarium is a pleasant diversion from his working world, and as well, a striking decoration to any room. For the child there is real educational value in a hobby that will grow with him.

And remember too—"Things Aquatic" need not be expensive. We have listed in our complete catalog aquariums and equipment in all price ranges, to fit every budget. And be assured that all merchandise in our catalog is "Loveland Tested"—for quality and satisfaction.

3. Avoid temperature changes—sudden drops in water temperature can be fatal to Tropicals. The best life insurance you can buy for your finny pets is a good heater and thermostat that will keep the water constantly between 74 and 76 degrees F.

4. Keep your aquarium clean—dirty aquariums in addition to being unsightly are unhealthy. The dirt and refuse which accumulates on the bottom of the aquarium should be siphoned off regularly and the sides of the glass cleaned with an aquarium scraper. Time spent cleaning the aquarium can be further minimized by using an air pump and filter. A filter will always keep the water pure and clean. When refilling the aquarium always use aged water or water made safe by Water Rite Tablets.

5. Always—when adding new fish to your collection, quarantine them in a separate aquarium for at least 48 hours. If they have been bruised or have become sick in transporting them to your home this quarantine period will enable you to discover whether or not your new fish are sick and you will be able to treat the disease without danger of contaminating your entire aquarium.

A Balanced Aquarium is Well Planted

A "balanced aquarium" is one in which the air surface of the water supplemented by the oxygen given off from the plants, provides sufficient oxygen in the water to support the life of the fish in the aquarium. The plants in giving off this life giving and water purifying oxygen, absorb harmful gases and carbon dioxide from the fish. It is the plants that keep the water fresh and clear, eliminating the necessity of changing the water in the aquarium.

Aquatic plants are the most important of the aquarium equipment and more than half the beauty. The natural beauty of aquatic plants serves as a pleasing background to enhance the exotic color of your fish.

Aquatic Plants need to be planted in "well-washed" aquarium gravel only; no soil is necessary. Gravel should be placed in the aquarium 2½ to 3 inches deep in the back, sloped to 2 inches deep in the front. Planting is done with the aquarium at least two thirds full of water. The roots of the plant should be gently pushed into the gravel and covered up to the crown, leaving the crown exposed. The arrangement of the plants in the aquarium is a matter of taste. Generally the taller plants are placed in the back with the smaller and more showy specimens towards the front. Plants require 8 to 10 hours of good light each day; they will grow equally well in sunlight or artificial light provided by an aquarium reflector.

CRYPTOCORYNE

The plants in this group are particularly well suited to aquariums that receive subdued light. In our opinion they are to be considered with the most beautiful of the aquatic plants. All are strong rooted and hardy, distinctive in color and shape.

101 CRYPTOCORYNE CORDATA—Broad heavy leaves, dark olive green, red underneath. 35c each; Large 75c

102 CRYPTOCORYNE BECKETTI—Dwarf variety—bright green leaves, long roots, an ideal plant for small aquariums. 25c each; Large 50c

103 CRYPTOCORYNE GRIFFITHI—The most beautiful of the Cryptocorynes—Broad dark silken green leaves, red underneath. Long stemmed and rooted—very hardy. Med. 75c each; Large \$1.50

104 CRYPTOCORYNE WILLISI—A decorative plant which is out of the ordinary. Thin, ripple edged green leaves. Propagates from short runners. 35c each; Large 50c

105 BROAD LEAF WATER SPRITE—Broad fern like fronds that spread fan-like under water. New plants reproduced from the leaves. Light green in color. Small plant 25c; Large 50c

106 NARROW LEAF WATER SPRITE—Same as broad leaf sprite—only finer leaves, more delicate in texture, does not grow as large. Small 25c; Large 50c

107 PIGMY CHAIN SWORD PLANT—*Echinodorus* Species. A

dwarf replica of the Amazon Sword Plant. Grows to height of 4 to 5 inches. 25c each

108 AMAZON SWORD PLANT—A truly gorgeous aquatic plant! Large bright green leaves, varying in shade, depending on the amount of light received. Excellent as a center plant, grows large, longlived and hardy.

Small 75c; Med. \$1.50; Large \$2.50

109 JUNIOR AMAZON SWORD PLANT—Another smaller growing center plant for small aquariums. Narrow bright green leaves, grows to 8 inches. New plants reproduced by runners. 20c each

110 ROUND LEAF SPATTERDOCK—Delicate light green rounded leaves, low growing, requires good light. 25c each

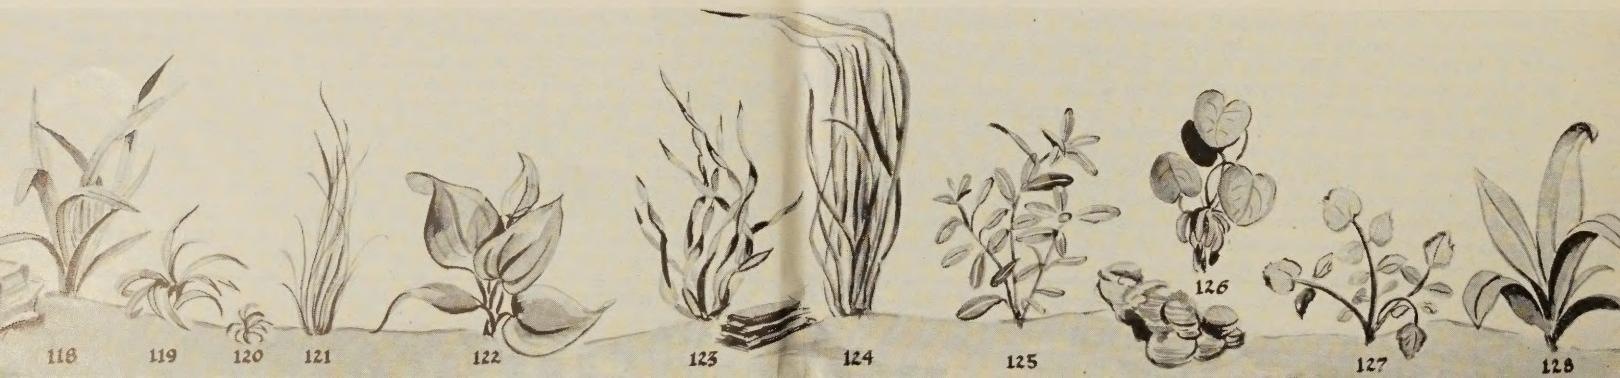

111 SOUTHERN SPATTERDOCK (Cape Fear Spatterdock)—Long leaves, crinkled translucent green. An excellent center plant. 25c each

112 APONOGETON UNDULATUM (A. Crispus)—A magnificent aquarium plant! Leaves are somewhat translucent, resembling rippled green swords. Grows large, requires good light. Med. 75c; Large \$1.50

113 APONOGETON ULVACEUS—The most magnificent of all center plants. Semi-translucent laticed leaves of beautiful green. Comes from Madagascar, has wonderful growing qualities. Reproduced from seed or root separation.

Med. \$2.50 each; Large \$3.50 each

114 APONOGETON DYSTACH GRANDIFLORA—A very close resemblance to Ulvaceus—except that taller plants produce flat leaves that float on the surface of the water. Medium 50c; Large \$1.00

115 DWARF AQUARIUM LILY—A true water lily from Madagascar. Brown splotched green leaves. **45c** each

116 CELLOPHANE PLANT—Beautiful translucent green leaves; from Honduras; an attractive center plant.

Medium Plants **35c** each; Large Plants **50c** each

117 AMBULIA—A very decorative plant—resembles Cabomba. Light green; can be "pinched off" and replanted, grows roots rapidly. **35c** per bunch

118 SAGITTARIA SINENSIS—Strong heavy leaves, bright green, grows tall to about 12 or 14 inches. **15c** each; **2** for **25c**

119 SAGITTARIA—DWARF VARIETY—Resembles Sinensis—small growing, excellent oxygenator. **10c** each; **3** for **25c**

120 SAGITTARIA MICROFOLIA—Excellent for front planting, a tiny dwarf variety to carpet the aquarium floor. A good oxygenator. **4** for **25c**

121 SAGITTARIA SUBULATA—Heavy, grass like dark green leaves. Propagates rapidly, grows to about 10 inches. **6** for **25c**

122 ECHINODORUS RADICANS (Sagittaria Guayanensis)—Broad, oval shaped leaves—flourishes under water—aerial stems bear leaves above the surface. Small **50c**; Large **\$1.00**

123 CORKSCREW VALISNERIA—Long bright green leaves that spiral like a corkscrew to the surface. An excellent oxygenator; may be used in small or large aquaria. **5** for **25c**; **12** for **50c**

124 VALISNERIA—(Eel grass)—One of the best oxygenators, and all time favorite of all aquarists. Grows tall, spreads rapidly in moderately good light. **5** for **25c**; **12** for **50c**

125 HYGROPHILA—A newer plant that has become very popular. Its bright green oval shaped leaves grow from stems that can be broken and planted in the gravel to take root rapidly. An excellent plant for baby fish to hide in where a thick planting is made. **25c** per bunch

126 BANANA PLANT—An odd plant with round leaves and thick roots that resemble a cluster of bananas. An aquatic oddity that is easy to grow. **25c** each

127 WATER CELERY—Light green leaves that resemble closely the leaves on a celery stock. A novel plant worth while trying in your aquarium. **35c** each

128 WATER ORCHID—A beautifully shaped plant with thick, heavy, dark green leaves. Grows well in subdued light. Mature plants bloom above the water. **35c** each

129 CABOMBA—Bright green fuzzy leaves—an excellent oxygenator; a good plant for baby fish to hide in. May be planted or left floating. **15c** per bunch

130 WATER ROSE—An unusual aquatic plant—bright green leaves. **25c** each

131 ANACHARIS—A heavy thick growing plant—an excellent oxygenator. **15c** per bunch

132 FOUR LEAF CLOVER—A definite attraction in any aquarium. Real clover shaped leaves on long stems under water. **25c** per portion

133 MYRIOPHYLLUM—A feathery plant ideal for spawning egg laying fish; a good plant for baby fish to hide in; an excellent oxygenator. **15c** per bunch

134 LUDWEGIA—Thick stemmed, round green leaves, red underneath. **20c** per bunch

135 HAIR GRASS—A dense growing plant with hair-like leaves. Very attractive when planted in clumps. Two varieties, rooted or floating. **25c** per portion

136—MONEYWORT—Round leaves, bright green, a good oxygenator. **25c** per bunch

137 BRAZILIAN UNDERWATER FERN—An odd plant with long bright green serrated leaves; heavy roots. **25c** each

THE FOLLOWING PLANTS ARE NOT ILLUSTRATED:

138 VARIEGATED VALISNERIA—A giant variety—broader leaves, very good in larger aquaria. **15c** each; **2** for **25c**

FLOATING PLANTS

141 AZOLLA—SALVINA—DUCKWEED—assorted. **Per portion 25c**

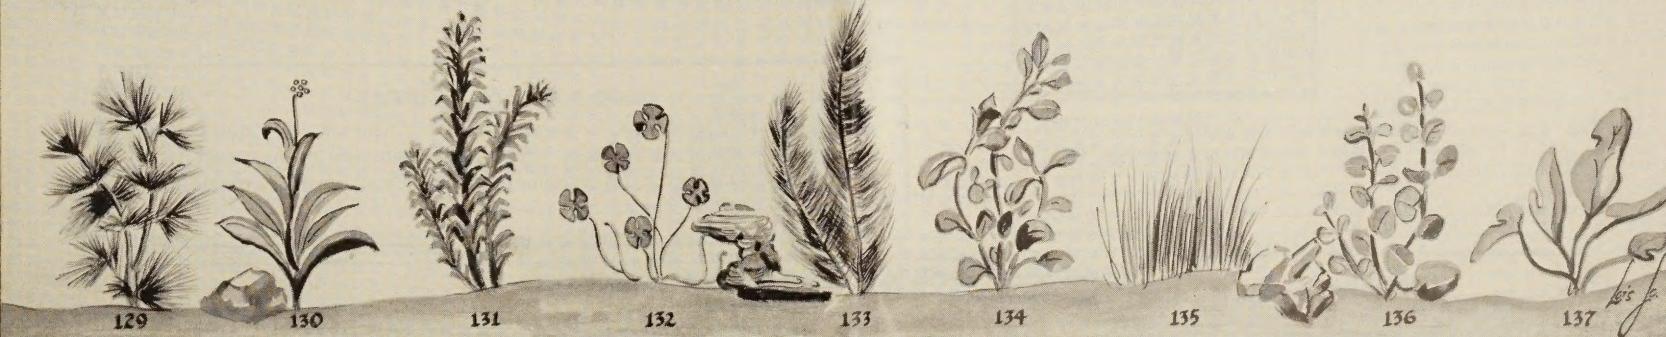

142 FLOATING WATER FERN—An interesting viviparous plant that floats on the top of the water, long hairy roots. An ideal plant to use with bubble nest builders. **10c** per plant

AQUA-FERN

Sensational new brightly colored fern-like plant that requires no light—will not rot or decay. Comes in dramatic green or red colors. Combine them with natural aquatic plants for sparkling effects. An excellent spawning or hiding plant for babies.

AQUA-FERN SMALL SIZE—about 4' Red or Green **39c**

14—12 Vallisneria

15—6 Sagittaria Sinensis

COL. A-30—This collection of plants will beautifully aquascape an aquarium of 30 to 50 gallons. 15 varieties—75 plants. **Collection Price \$7.75**

COL. A-15—This collection is for a 15 to 20 gal. aquarium. 15 varieties—50 plants. **Collection Price \$5.50**

COL. A-10—This collection is for a 10 gal. aquarium 15 varieties—25 plants. **Collection Price \$3.75**

AQUATIC PLANT COLLECTIONS

The plants in the collections listed on this page are selected from the finest of aquarium plants grown in our greenhouses. All plants listed are excellent oxygenating plants; the collections are varied to give proper size and number of plants according to the size of your aquarium. Experienced aquarists select, gather, and wrap all plants carefully so that they will reach you in good condition to give you pleasure and add beauty to your aquarium.

COLLECTION NO. A-1

This collection for the five gallon aquariums—consists of the popular varieties—Vallisneria, Sagittaria, Anacharis, and Floating Fern.

10 Plants—4 Varieties **\$1.25**

COLLECTION NO. A-2

For those aquarists with a five to eight gallon aquarium who desire a wider variety of oxygenating plants we recommend this collection. Eight varieties of plants.

\$1.75

COLLECTION NO. A-3

An assortment of at least 20 selected plants in eight to ten varieties. Sufficient for an attractive display in a 10 gallon aquarium.

\$2.25

COLLECTION NO. A-4

A Deluxe assortment of at least 20 assorted plants including some of the more rare types such as Cryptocoryne, Cellophane Plant, Spatterdock, etc., for a 10 to 15 gallon aquarium.

\$2.75

COLLECTION NO. A-5

For the 15 to 20 gallon aquarium we recommend this assortment: 30 plants of at least 12 varieties including the Cryptocoryne.

\$3.25

COLLECTION NO. A-6

For the 20 to 30 gallon aquarium—a collection of 30 or more plants including the four varieties of Cryptocoryne and one of the Aponogeton.

\$5.00

PLANT AND SCAVENGER COLLECTION

PS-1—Plants and Scavengers. A collection suitable for a 2 to 5 gallon aquarium.

8 Plants and 4 Snails **\$1.25**

PS-2—A collection of 15 selected plants and 6 assorted snails—suitable to balance a 10 gallon aquarium.

\$2.00

PS-3—This collection for a 15 to 20 gallon aquarium. 20 assorted Plants (Col. A-4) and asst. of Snails (Col. S-10)

\$3.75

NEW GIANT HYGROPHILA from Brazil

Here is a plant, recently introduced to aquarists in this country, that has proven itself to be an excellent and easily grown aquarium plant. A beautiful plant, Giant Hygrophila has slender, tapering, dark green leaves, that grow from a sturdy stem slightly darker in color. Easily grown from cuttings, quick to root, Giant Hygrophila will flourish in any aquarium. For variation in your outdoor pool, plant it in shallow water—outdoors it will grow above the water and bear delicate white blooms.

50c per Plant; 3 for **\$1.25**

GOOD LIGHT IS ESSENTIAL

Good light, not necessarily strong sunlight is necessary to grow beautiful plants in any aquarium. Artificial light, easily controlled by an aquarium reflector is usually the best. An aquarium reflector (See page 13) is a worthwhile investment in added beauty and pleasure.

ORNAMENTAL DIVER AIR RELEASES

Realistic and life like, made of pure lead, will not harm fish or plants in your aquarium. These divers are equipped with an attachment for air hose with an air releaser built into the helmet for that realistic effect.

NO. 1 DIVER WITH OPEN JEWEL CHEST—3½ inches high with removable metal air releaser built in helmet. Each \$2.35

NO. 2 STANDING DIVER WITH STAFF—4½ inches high with removable metal air releaser built in helmet. Each \$2.00

NO. 2A SMALL STANDING DIVER WITH DAGGER—3¼ inches high—with reed air releaser in helmet. (Same as No. 2 but smaller.) Each \$1.15

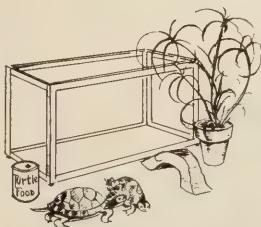

NO. 3 KNEELING DIVER—3¼ inches high with fine carborundum stone built in helmet. Each \$1.75

NO. 4 SMALL DIVER ON CEMENT BASE—standing diver 3½ inches high with reed air releaser in helmet. Each \$1.00

NO. 5 DIVER AND SUNKEN SHIP—rocks and cement base—3½ inches high, 8 inches long, diver has reed air releaser in helmet. Each \$2.00

NO. 6 DIVER AND TREASURE CHEST—on cement base, 3½ inches high, diver has reed air releaser in helmet. Each \$1.60

TURTLE COLLECTIONS

These baby turtles are a special delight to youngsters. They make wonderful pets, require little care, and are an ideal way to educate children about animal life and care of pets.

Because baby turtles are not available at all times we can ship these Turtle Collections only when we are able to obtain them. Usually we are able to ship them from February to April—and from August to November.

COLLECTION NO. 57—2 Baby Green Turtles, 1 Umbrella Palm, 1 box Jo-Jo Turtle Food, 1 Turtle Bridge—Price \$1.50.

COLLECTION NO. 58—All of Col. No. 57 with a GC 2—2½ gallon Grey Hammerloid Finish Aquarium 14" long, 6" wide, 6" high. PRICE COMPLETE \$3.95.

COLLECTION NO. 59—A smaller collection—includes 1 Baby Green Turtle, 1 box Jo-Jo Turtle Food, 1 bag pearl Chips, 1 Plastic Turtle Bowl with Palm Tree Ornament—PRICE COMPLETE \$1.45.

SCAVENGERS...for the Aquarium and Pool

Be sure you have some of these scavengers in your aquarium. Snails are always interesting to watch and are of real value because they help to keep the aquarium clean. Snails consume much of the excess food and debris from decaying plant leaves; they also feed on Algae. Like any other scavenger, they cannot be expected to keep the water clear or to remove all the debris that accumulates on the bottom. Snails do not attack live fish, but they do provide an additional service in that they feed on the carcass of dead fish which prevents the dead fish from "souring" the aquarium water.

MYSTERY SNAILS (*Ampullaris Cuprina*)—This four-horned snail derives its name from the mysterious fashion in which it lays eggs outside the water in which they live. 200 to 300 eggs are deposited on the surface above the water line. A very useful as well as interesting scavenger; a good infusoria producer. MEDIUM SIZE 2 for 25c — 12 for \$1.00. LARGE BREEDERS—75c per pair.

MYSTERY SNAIL EGGS—Easy to hatch, snail eggs are shipped to you complete with directions, 200 to 300 eggs in nest. PRICE \$1.00.

JAPANESE SNAILS (*Viviparis Mallaetus*) "Trap Door Snail"—this live bearing snail originally from Japan is well suited to cold water tanks and outdoor pools. Hardy and prolific these snails make excellent scavengers. EXTRA LARGE 50c pair. ASSORTED SIZES 25c pair—12 for \$1.00.

RED RAMSHORN SNAILS (*Planorbis Corneus*)—An active worker, small, bright red in color. Lays eggs in gelatin like mass. BREEDING SIZE 2 for 25c.

BLACK RAMSHORN SNAILS (*Planorbis*)—Another hardy snail that is an excellent scavenger for outdoor pools and goldfish tanks. 3 for 25c — 6 for 50c.

PHILLIPINE SNAILS—Pigmy live bearing snail—small dark brown in color, "Horn of Plenty" shaped. This tiny snail is a worthwhile addition to any tank, they burrow in the gravel and consume food and refuse below the surface. Very prolific breeders. 4 for 25c — 50c dozen.

FRESH WATER MUSSELS—These fresh water clams are useful in aquariums to filter green algae and cloudiness from the aquarium. They remain half buried in the gravel and filter the water through themselves feeding on any suspended matter that may be present in the water. 2 for 25c — 12 for \$1.00.

AMERICAN NEWTS (*Salamanders*)—These interesting little aquatic animals are amphibious; they can be kept with goldfish, in pools or aquariums. 35c each.

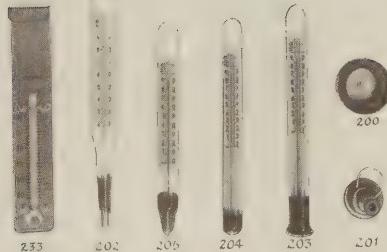

BABY TURTLES—Another aquatic novelty; these little fellows make wonderful pets for children and provide them with a sense of responsibility towards living creatures. Interesting to watch they will eat Turtle Food, Ant Eggs, or White Worms. Give them an occasional bit of raw beef and keep them where they get a few hours of sun each day. EACH 75c.

SCAVENGER COLLECTION COLLECTION NO. S-10

SNAIL COLLECTION. Consists of a selection of five varieties of snails.
All nice, selected specimens.

\$1.25

Aquarium Necessities

AQUARIUM THERMOMETERS

233—Stainless Steel Hanging Thermometer—Hangs on aquarium frame, accurate, easy to read, clearly defined numerals. 5 1/4" long. **\$1.00 each**

202—Large Mercury Filled Floating Thermometer—Floats upright in the aquarium, accurate, easily read markings. 6 1/4" long. **.75c each**

205—Speed Point Floating Thermometer—Floats upright, accurate within two degrees, red filled, easy to read numerals. 4 1/2" long. **.35c each**

204—Floating Thermometer—An inexpensive, accurate thermometer. Floats upright in the aquarium. 4 3/4" long. **.25c each**

203—Standing Thermometer—Weighted to stand vertically at the bottom of the aquarium. Accurate within two degrees, red filled, easy to read. 5" long. **.35c each**

200—Stick-On Thermometer—Attaches by suction to the inside surface of the aquarium glass. Accurate, easy to read, and dependable. 1 1/4" diameter. **.50c each**

201—Rubber Suction Cup Holder—For floating thermometers or feeding rings, fastens them securely against the glass in the aquarium. **.10c each—3 for .25c**

210—Glass Feeding Rings—Prevents food from spreading over the entire aquarium, makes it easier to keep tank clean. **.25c**

210 A—2"x2" Glass **.25c**

210 B—2 1/2"x2 1/2" Glass **.25c**

210 C—3"x3" Glass **.35c**

210 D—2"x4" Glass **.35c**

211—Plastic Feeding Rings—Unbreakable, green plastic construction. **.35c**

211 A—2"x2" Plastic **.50c**

211 B—2"x4" Plastic **.50c**

212—Plastic White Worm Feeding Ring—An excellent way to feed live food to your fish without the worms falling to the bottom into the gravel. Fish await the worms to crawl out of the holes in bottom of feeding ring. **.25c each**

213—Cork and Glass Worm Feeder—Floats upright in the aquarium, holes in bottom. **.25c each**

214—Junior Water Testing Kit—A simple testing kit and color chart for testing aquarium water to determine the acid or alkaline content. For healthier aquariums, and controlled breeding. **.60c each**

215—Senior Water Testing Kit—A complete kit for testing and adjusting the PH values in your aquarium. An accurate color chart, Bromothymol Blue and "eye-dropper", Sodium Biphosphate, and Sodium Bicarbonate for adjusting water. Complete, easily understood directions. **\$1.75 each**

216—Fish Ado pH Kit—pH papers, color chart, in a compact plastic case. To test acidity or alkalinity of your aquarium water simply tear off a small strip of the sensitive papers, dip in a drop of water and match the color on the chart. **.50c each**

217—U-Channel Rubber—Easy to use—to divide or partition your aquariums. Cut glass to size, fit in channel, place glass with rubber inside your aquarium. **.15c per foot**

218—Siphon Hose with Rubber Ball Starter—7 ft. of heavy black rubber hose with rubber ball starter attached. Indispensable to the aquarist who wants a clean aquarium. Easily used to siphon dirt and debris off the bottom of the aquarium. **.50c each**

219—Self Designing Crystal Paint—To paint aquarium glass on the outside, the back and sides, easy to apply, crystallizes in beautiful colors and shapes as it dries. Specify color desired when ordering. One ounce bottles, enough to paint the back of a 10-gallon aquarium. Red, Yellow, Blue, Green, Rose, Amber, Turquoise, White, and Clear. **.25c each**

220—Pecora Aquarium Cement—A product that can't be beat for repairing broken or leaky aquariums, constructing new ones. Easy to work with, a black, ever-plastic cement. Directions for use on can.

220 A—1 Pound Pecora Cement **.55c**
(Can be shipped Parcel Post)

220 B—5 Pound Pecora Cement **.22.5**
(Shipped only Express Charges Collect)

220 C—10 Pound Pecora Cement **.38.5**
(Shipped only Express Charges Collect)

FISH NETS—Indispensable for every aquarist and fish fancier. For gold or Tropical fish—Wire handles.

N 1—3 inch Triangular net **.15c**

N 2—4 inch Triangular net **.25c**

N 3—4x5 inch **.35c**

N 5—5x8 inch **.50c**

N 6—7x10 inch for large tanks **.75c**

N 7—3 inch Triangular goldfish net **.20c**

N 9—6 inch Triangular goldfish net **.50c**

NEW NYLON FISH NETS—Faster drying, longer lasting nets for beginners or experts who insist on the best. **.20c**

N1N—3 inch Triangle **.20c**

N2N—4 inch Triangle **.30c**

N3N—5 inch Triangle **.40c**

N4N—6 inch Triangle **.50c**

N8N—5x8 inch **.50c** **\$1.00**

N10N—7x10 inch **.50c** **\$1.50**

201 A—Stainless Steel Clip Holders for Floating Thermometers—fits over the frame on your aquarium and holds a floating thermometer securely in place for easy reading. **.25c each**

221—Liquid Aquarium Cement—(Not Illustrated)—To repair minor leaks or cracks in aquariums. Easy to apply. 1 ounce bottle. **25c each**

222—Aqua-Vac Power Dip Tube—At last! An effortless way to quickly remove sediment from the bottom of your aquarium without removing valuable aged water, or disturbing the plants or fish. All you do is fill the filter compartment with glass wool and attach dip tube to any air pump. It literally vacuum cleans the bottom of your aquarium. Made from clear plastic. (NOTE: The Aqua-Vac will not operate without an air pump.)

222 A—14 inch Aqua-Vac each **\$1.98**

222 B—18 inch Aqua-Vac each **2.25**

223—Plastic Dip Tubes—To clean the dirt and refuse off the bottom of your aquarium. Put the large end of the dip tube into the aquarium over the dirt or sediment; keep finger covering top of smaller end; remove your finger—Presto! the dirt is sucked up into the tube. Remove and invert the tube, pouring out the water and the dirt. Dip tubes as illustrated have "take apart" feature for easy, thorough cleaning.

223—12" Plastic Dip Tube each **65c**

223 A—14" Plastic Dip Tube each **75c**

223 B—16" Plastic Dip Tube each **85c**

223 C—18" Plastic Dip Tube each **\$1.00**

223 D—24" Plastic Dip Tube each **1.25**

Wide Mouth "No Gravel" Dip Tubes—Same as described above—Wide Mouth prevents tube from picking up gravel along with sediment.

223 E—12" Wide Mouth Dip Tube **70c**

223 F—14" Wide Mouth Dip Tube **80c**

223 G—16" Wide Mouth Dip Tube **\$1.05**

223 H—18" Wide Mouth Dip Tube **1.35**

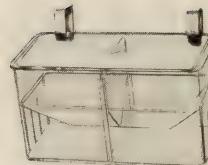

224—Plastic Catch Pipe—Designed to safely catch and remove gravid females or baby fish from the aquarium. Place large end of catch pipe into aquarium, keeping finger over small end, guide pipe towards gravid female or baby fish, release finger when pipe is close to quarry, fish will be sucked into globe with water for safe removal. **65c each**

225—Planting Tongs—Rustproof, made from light weight non-ferrous metal. Simplifies planting without causing undue disturbance of fish in the aquarium. 15 inches long. **\$1.15 each**

226—Metal Aquarium Scraper—Rust proof, light weight, 15 inches long, will hold any type safety razor blade. **65c each**

227—Metal Planting Stick—One of the most useful tools we have seen. Makes planting in the aquarium easy. Catch roots firmly in the forked end and slip the plant into the gravel. Use broad flat end for packing gravel around plant to hold it in place. For real planting efficiency, use planting stick and planting tongs together. 18 inches long, rust proof. **50c each**

228—Wood Handle Aquarium Scraper—19 inches long with reversible razor blade and rubber squeegee. Makes removing of algae from aquarium glass an easy job. **50c each**

new born babies or small fish safe from the cannibalistic jaws of larger fish—or as a Betta Display Tank—two male Siamese Fighting Fish can be placed side by side safely in your community aquarium. Price **\$3.25**

229—Plastic Breeding Trap—4"x4"x8" constructed of clear plastic with plastic rod slats in bottom to permit eggs or baby fish to drop through. If suspended in separate tank the newly born fish or eggs can drop through the openings between the rods and avoid their sometimes cannibalistic parents. **\$2.75 each**

230—V-Shaped Breeding Trap—Designed for live bearers or for separating individual fish. Removable slat in bottom or for separating individual fish. Removable slat in bottom for conversion. **\$2.00 each**

231—Plastic Betta Trap—For those of you who yearn for the beauty of more than one Betta (Siamese Fighting Fish) in a community aquarium, this partitioned plastic Betta tank is the answer. Tank is 4"x4"x8" with drilled holes to insure water circulation. Plastic partition is removable, easily bent metal hangers fasten Betta Trap to side of aquarium. **\$2.75 each**

232—First Aid Kit—A complete package of preventatives and remedies to treat all diseases common to Tropical Fish and a new authoritative handbook on fish diseases. This simple handbook tells you in simple language how to recognize, diagnose, and how to treat the disease with the remedies contained in the kit. Protect your prized aquarium—have this practical First Aid Kit on hand at all times. **Price \$3.50**

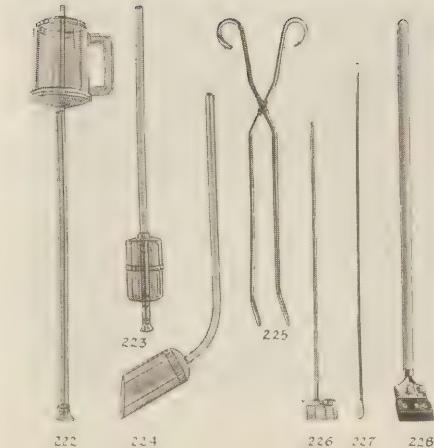

234—Aqua-Fern—The amazing new, everlasting color-fern for aquarium decoration and spawning. Not an artificial moss, aqua-fern will never spoil, never die, and needs no light to grow. An ideal spawning moss for breeding egg-layers. It can be dried out and used over and over. It comes in brilliant tones of red or green in two different sizes.

234 A—Small Aqua-Fern (about 4" high) **39c each**

234 B—Large Aqua-Fern (about 6" high) **69c each**

235—Jo-Jo Spawning Grass—Easy to use, a natural product that is practically everlasting. A wonderful spawning and hiding medium, will not deteriorate in water, can be dried and reused. **Per Package 25c**

236—Jiffy Aquarium Cleaner—A time and work saver for all aquarists. Dirt and sediment in the aquarium is vacuumed off the bottom by means of a powerful rubber bulb with plastic tube. The dirty water from the aquarium is filtered through a cloth bag and the clean water passed back into

the aquarium. Eliminates troublesome mess and saves precious aged water. Use it once—and you'll never give it up. Price **\$3.75**

237—Water Testing Kit—Safe, dependable and accurate. An easy method for determining the relative hardness or softness of aquarium water. Complete with directions in clear plastic box. **\$2.00**

238—Water Softener—An effective water softener for aquarium use. Placed in an aquarium filter this softener does the job completely and effectively. Pillow can be recharged and used over and over. **\$1.00**

Vita-San "Water Conditioner" (Anticrassicum)—The natural way of keeping and breeding aquarium fishes. Fully guaranteed to prevent and destroy harmful bacteria due to food decay; increase the amount of dissolved oxygen vital to plants and fish; cure Ich, Fungus, Tailrot without harming aquarium plants, and to cause fish to spawn faster, grow larger, and stay healthier.

Vita-San—Small Size $\frac{2}{3}$ ounce **50c**

Vita-San—Large Size 2 ounces **\$1.00**

Vita-San—Economy Size 9 ounces **\$3.00**

Perlia—Nature's way of conditioning water. Removes chlorine and chloramine instantly from city faucet water. Prevents algae (green water), purifies aquarium water making fish and plants grow faster and stronger.

Perlia—Small Size Disc—for one gallon **20c**

Perlia—Medium Size Disc—for 3 to 5 gallons **35c**

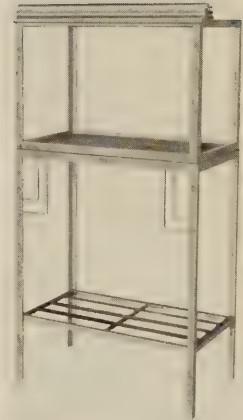

Perlia—Large Size Disc—for 12 to 20 gallons **75c**

All Aquarium Prices Include Packing Charges

All Aquariums are shipped via Railway Express—shipping charges collect. If aquaria are damaged or broken get a Bad Order Report from your Express Agent or Deliveryman. If your aquarium arrives damaged or broken and you have obtained this Bad Order Report we can send you another aquarium free of charge. Do not return broken aquarium to us. Mail us a copy of your Bad Order Report so that we can file claim and make immediate replacement.

STAINLESS STEEL AQUARIUMS

These aquaria are made from the finest glass and metal frames available. Because of this deluxe construction exceptional care is taken to be sure that all corners are mitered. Extra heavy slate bottoms are used in all larger sizes and the frames are double welded for added strength. Highly polished, these durable stainless steel aquaria will last for years, a fitting show piece in any room. When aqua-scaped they will add much to any decorative scheme. Prices as listed do not include gravel guard or gravel as illustrated.

GREY HAMMEROID FINISH AQUARIUMS

These galvanized metal aquariums with their beautiful Grey Hammeroid Finish are sure to please those who prefer a glass bottom aquarium. Sturdily built, these aquaria will provide years of pleasure and beauty in your home. GC 2-3 are made with legs on the bottom. The NO. 1 Style Grey Hammeroid Finish reflectors are made from the same galvanized metal and are custom designed to fit properly on the aquaria. The graceful angle iron stands as shown in the illustration have the same Grey Hammeroid finish and are complete with rubber coasters to prevent marring floor surfaces. The flanged legs of this stand allow an aquarium of the same size to fit the bottom and top shelf. All stands are 30" high.

AQUARIUM REFLECTORS

Aquarium plants require from 8 to 10 hours of good light every day. Aquarium reflectors are essential where natural light is not sufficient for plant growth. Plants will grow equally as well under artificial light which may be substituted entirely for natural sunlight. NOTE: Only No. 5 Style Stainless Steel Reflector comes equipped with bulbs. All other reflectors, order bulbs separately.

AIR PUMPS

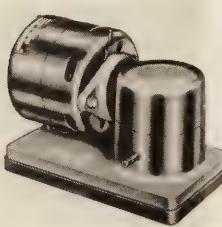

MARVEL AIRFLOW PUMP

PRESSURE GAUGE

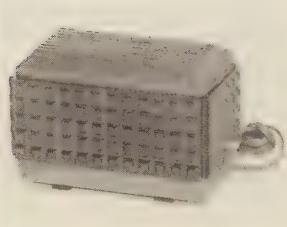

NEPTUNE ROTAERATOR

MARCO AIR PUMPS

THIBERG

WHITE MIST

MARVEL AIRFLOW PUMP—The mighty midget of aeration. A small powerful pump built to give years of dependable service. Noiseless, self cooling motor operates a "push-pull" type piston that can be regulated to individual aeration requirements. Guaranteed against defects in material and workmanship.

Model A—will operate 3 filters or 3 releasers Price \$20.85

Model B—will operate 6 filters or 6 releasers Price 28.35

Model C—will operate 12 filters or 12 releasers Price 33.85

NOTE: MODEL B AND C COME EQUIPPED WITH
PRESSURE GAUGE

PRESSURE GAUGE—A pressure indicator and equalizer. Operates with any type air pump. Visible pressure gauge protects any pump against harmful use. Assures uniformity of air pressure and acts as a dirt trap. Price \$5.85.

REPLACEMENT PARTS FOR MARVEL AIRFLOW PUMPS

Extra Leather Belts (specify pump model) Each 75c

Extra Cylinder Washers for Models A, B & C Each 50c

Flutter Valves Each 50c

NEPTUNE ROTAERATOR—The Rotaerator has sufficient air output to supply 4 filters and/or 6 air releasers—self starting—built in air filter—brushless motor—requires oiling in only three places—every three months—operates on 110-120 Volt A.C. Current. Guaranteed by Manufacturer for 1 year. Dimensions 5 3/4" in length, 4 1/4" in height, 3 1/2" in width. Price \$22.50.

KING SIZE NEPTUNE ROTAERATOR—The most powerful air pump now on the market at any price. 1/70 H.P.—225 cubic inch capacity. Operates on 110-120 volt AC current. Guaranteed by manufacturer for 1 year. Dimensions 5 3/4 inches in length, 4 1/4 inches in height, 3 1/2 inches in width. Price \$32.00.

SAXON AIR PUMP HANGER—Made of thick rust proof aluminum with sponge rubber pads to absorb noise and vibration. Fits all tanks up to 3/4" frame—will hold any of the smaller type air pumps. Complete with screws to mount 2 air line valves. Price \$1.00.

MARCO AIR PUMPS—Marco pumps are especially designed for use in the home aquarium. Reliable, economical, noiseless and trouble-free. A well built, sturdy piston type air pump that will give years of service under continuous operation.

Model A—for 3 releasers Price \$27.50

Model B—for 6 releasers Price 33.00

Model B2—for 12 releasers Price 38.50

THIBERG AIR PUMP—A small compact air pump in an attractive ivory colored case. Powerful enough to operate a filter and one air releaser simultaneously, economical operation—guaranteed for one year. Simple to operate, requires no oil, control knob on top of pump regulates amount of air. 4 1/2 inches high, 3 inches in diameter at base. Price \$10.00.

WHITE MIST AIR PUMP—MODEL NO. 20—Beautifully finished in a decorative two tone carved wood case 6 1/2 inches long, 3 1/2 inches wide, 4 inches high. Noiseless, smooth operating and powerful, this pump will operate a filter and air releaser. Requires no oiling, guaranteed for one year by the manufacturer. Price \$14.50.

WHITE MIST AIR PUMP—MODEL NO. 50—A larger capacity air pump in the same small decorative wood case. Used for years by research laboratories, Army, Navy, schools, hospitals. Guaranteed for one year—enough air for three to six outlets. Price \$17.50.

SAXON AIR PUMP—As powerful as it is small—only 3 1/2" long x 2 1/2" wide x 2" high, beautiful molded black and ivory bakelite case. Will operate with ease, one filter and four air stones. Electrical consumption—2 watts 110-120 volts A. C. Control knob on top permits regulation of air flow, economical, dependable aeration at an exceptionally low price. Price \$8.95.

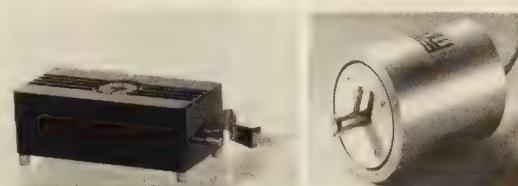

One year written guarantee.

WIL-NES MONARCH 99 AIR PUMP—Here is a new, low priced aquarium aereator. Attractive green plastic case, 4" long, 2 3/4" wide, 3" high, the Monarch 99 will adequately operate one filter and one air releaser. Equipped with metal hanger so that pump can be hung inconspicuously on side or rear of aquarium. Fully guaranteed for one year.

Price \$9.95

ES-ES AIR PUMP—(Made in England) Here is the best of the imported pumps we have seen. Requires no oiling, no moving parts or diaphragm to wear, silent in operation. High performance—powerful in operation—will supply sufficient air for two to three aquaria. 3' long, 3" in diameter—black bakelite case with outside control valve. Unconditionally guaranteed for one year. Price \$13.50.

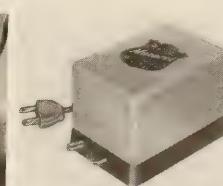

ANGEL AIR PUMP—(Made in England) Here is another precision made, vibrator type air pump. Small and compact black plastic case, 4 1/2 inches long, 2 3/4 inches wide, 1 1/4 inches high. Wil' operate two outlets (filters or releasers), requires no oiling. Guaranteed for six months. Exceptionally low priced—ONLY \$7.50.

ANGEL AIR PUMP

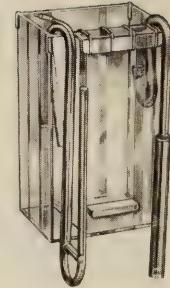

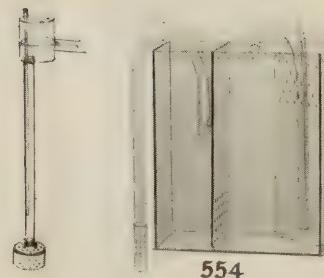

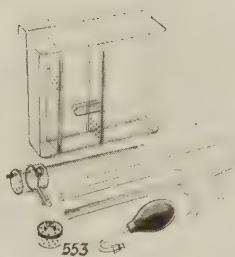

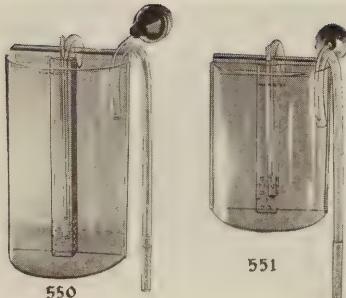

ES-ES AIR PUMP

WIL-NES MONARCH 99

SAXON AIR PUMP

OUTSIDE FILTERS

550 OUTSIDE PLASTIC FILTER— $\frac{1}{2}$ inches high—5 inches long— $\frac{3}{4}$ inches wide. Made from unbreakable plastic. Complete with intake and outlet stems, rubber ball starter, charcoal and glass wool. Price **\$5.50**.

551 OUTSIDE PLASTIC FILTER—Junior size—6 inches high—5 inches wide— $\frac{3}{4}$ inches wide. Completely equipped for efficient filter operation. Charcoal and glass wool included. Price **\$4.50**.

553 WIL-NES OUTSIDE FILTER—One piece molded plastic construction with removable partitions for easy cleaning. 7" L, 6" H, 2" W. Even-flo airlift, siphon stems, and rubber ball starter. Price **\$4.00**—Complete with charcoal and glass wool **\$4.50**.

WIL-NES EVEN-FLO AIRLIFT STEMS—for Wil-Nes Inside or Outside Filters. New type airlift features even flow of water to tank. **85c** each. Strainer **15c**.

554 NARROW OUTSIDE PLASTIC FILTER—6 inches high, 5 inches wide, 2 inches deep—Separate compartments for glass wool and charcoal. Complete with intake and outlet stems, rubber ball starter, charcoal and glass wool. Price **\$3.50**.

555 GRO-WEL SLIM JIM JR. OUTSIDE FILTER—Designed to fit those narrow spaces— $\frac{3}{4}'' \times 5\frac{1}{2}'' \times 6''$ —molded plastic construction, removable partition for easy cleaning. Complete in package, Filter with air lift siphon stem, jiffy starter, charcoal and glass wool. Price **\$3.95**.

556 GRO-WEL SENIOR SLIM OUTSIDE FILTER—Clear lucite construction—designed to fit those narrow spaces. $1\frac{1}{4}'' \times W \times 7\frac{1}{2}'' L \times 6'' H$. Filter, air lift, siphon stem, and rubber ball starter. Price **\$5.85**. (Not illustrated).

557 GRO-WEL REGULAR OUTSIDE FILTER— $2\frac{1}{2}'' \times 4'' \times 6''$ strong clear plastic, molded in one piece, with removable partition for easy cleaning. Complete in package, Filter with air lift, siphon stem, jiffy starter, charcoal and glass wool. Price **\$3.95**.

SEPARATE STEMS FOR OUTSIDE FILTERS

NO. 61—**NIAGARA HEAVY DUTY FILTER**—**40" SUPERFLO AIRLIFT** and **REVERSTART SIPHON**—Filters 80 gallons per hour. **\$33.95**.

Why Aeration & Aquarium Filters?

The most important factor in maintaining an aquarium is "proper balance." This proper balance is sure to be maintained when the water is aerated and filtered by means of mechanical circulation. Both aeration and filtration are dependent on air power for circulation. This air power is furnished by an electrically powered air pump. As the water in your aquarium is passed through an aquarium filter it is cleaned, all impurities and dirt are removed, and freshly aerated water is returned to the aquarium. This means that your aquarium will remain crystal clear; instead of cleaning your whole aquarium, only the filter tank needs cleaning. The fish in your aquarium will be healthier and more colorful, they will live longer, grow larger, and breed more prolifically. Depending on the size of the pump, more than one aquarium can be filtered and aerated with a single air pump. Connections are made with rubber or plastic tubing, and special valves for the air outlets.

SEPARATE SCATTERGOOD STEMS

For Use with Any Outside Filter

NO. 7 SUPERFLO AIRLIFT—The most efficient airlift made—uses only 1/6 the air of others, yet filters more water. Gives noiseless, smooth, air-saving performance. Fits any outside filter. \$2.00 each.

NO. 33 SF AIRLIFT—An improved conventional type airlift—Fits any 8" Outside Filter. Not recommended when heater and thermostat are to be used in filter. 99c each.

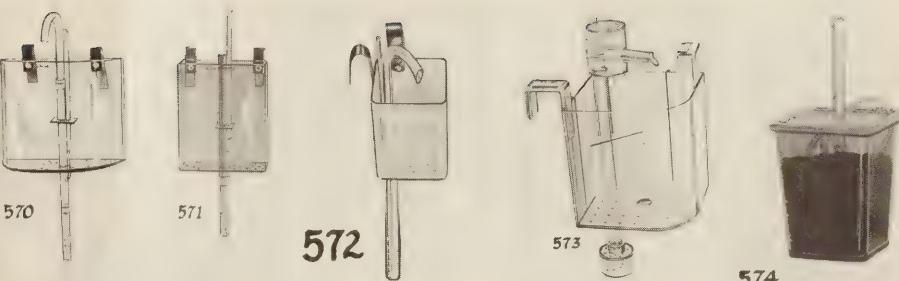

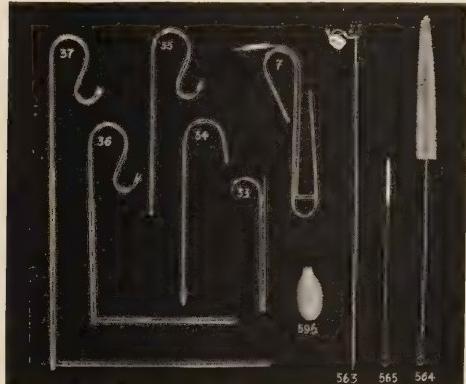

NO. 34 SF SELF-STARTING SIPHON—Starts instantly without using rubber bulb. Inexpensive and well made—75c each.

NO. 35 REVERSTART (Non-adjusting) SIPHON—Simpler, easier, starting, less likely to clog. 85c each.

NO. 36 16" SELF-ADJUSTING SIPHON—Adjustable to a maximum depth of 16"—right angle extension increases the water circulation. \$2.25 each.

NO. 37 24" SELF-ADJUSTING SIPHON—Adjustable to a maximum depth of 24"—\$2.50 each.

NO. 585 RUBBER BULB BUSTER—For use with any outside filter, specially made for use with SCATTERGOOD FILTERS. Price 40c.

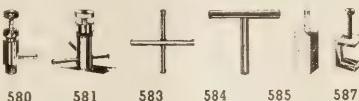

NO. 563 SCACO FLEXI-BRUSH—Cleans filter stems thoroughly and easily. Nylon brush mounted on 19" stainless steel spring. 65c.

NO. 565 AIR RETURN STEM CLEANING BRUSH—Specially designed to fit into small stems—25c each.

NO. 564 RIGID FILTER STEM BRUSH—A good all purpose filter stem cleaning brush—50c each.

COMPLETE FILTER STEM CLEANING BRUSH SET—All three of above listed brushes—\$1.25.

580 AIR VALVE—One outlet—1/8" Threaded ... each \$1.00

581 THREE WAY AIR VALVE—Brass each .75

582 TWO WAY AIR ALVE—Right or left, brass each .75

583 BRASS X each .35

584 BRASS T each .25

585 AIR STONES—finest quality each .35

587 METAL CLAMPS FOR AIR LINE each .35

588 METAL AIR RELEASER each .35

589 HEAVY DUTY PLASTIC AIRLINE TUBING—Will not rot, crimp, or kink—10c per foot; 25 feet for \$2.25.

590 LIGHT WEIGHT PLASTIC AIRLINE TUBING—A lighter tubing to connect filters and fittings to air pump. 7c per foot; 25 feet for \$1.50.

591 BLACK RUBBER AIRLINE TUBING—Finest quality, highly flexible rubber tubing—7c per foot; 25 feet for \$1.50.

589 12-INCH PLASTIC EXTENSION STEM TO FIT AIR STONES 15c

591 24-INCH PLASTIC EXTENSION STEM TO FIT AIR STONES 25c

GRO-WEL ROCK FILTERS—This handsome molded plastic filter "looks like a rock—works like a charm." This decorative "Rock" is an efficient inside filter. You just fill it with glass wool, connect the air hose, put it in the aquarium and forget it—except to admire it. Details of construction and operation are clearly explained on the package. PRICE \$3.75.

INSIDE FILTERS

570 PLASTIC INSIDE FILTER—HALF ROUND SHAPE—Unbreakable plastic construction—4 inches high—4½ inches long—3½ inches wide. Complete with stem, aluminum hangers, glass wool. Fits inside the aquarium; all you do is attach the intake stem to hose from air pump. Price \$2.50.

571 NARROW INSIDE PLASTIC FILTER—2 inches wide—3 inches long—4 inches high—a small compact inside filter that operates efficiently on a minimum amount of air. Aluminum hanger, stem and glass wool. Price \$1.75.

572 GRO-WEL INSIDE JUNIOR LUCITE FILTER—2½" x 2½" x 3½"—compact, efficient, fits snugly in corner, inside aquarium. Stainless Steel hangers, easily bent to fit any frame. Filter complete with glass wool. Price \$2.50.

573 WILNES INSIDE MOLDED PLASTIC INSIDE FILTER—Filter is one piece molded plastic construction. Unique intake stem fitted to outside of filter causes a steady continuous flow of water through filter. 3½ inches square, fits in corner of aquarium. Complete with glass wool. Price \$2.00.

INSIDE BOTTOM FILTERATORS—A brand new idea to circulate the water in your aquarium and filter it at the same time. Two sizes, No. 574 for tanks up to 10 gallons, No. 575 for larger tanks.

No. 574—Small—2½" x 2½" x 3" high each \$1.75

No. 574A—Complete with Charcoal and Glass Wool 2.25

No. 575—Large—3" x 3" x 4½" high each \$2.00

No. 575A—Complete with Charcoal and Glass Wool 2.50

FRENCH "INVISIBLE" FILTER-AERATOR—A brand new principle in aquarium filters. This new type filter should be "buried" in the gravel in your aquarium; as the air is forced through the tube it creates a suction pulling the water and dirt through the gravel and actually destroys harmful bacteria found in the dirt and refuse. Never needs cleaning—uses no charcoal or glass wool, operates in any water depth.

5" size for aquariums 2 to 5 gallons Price \$2.25

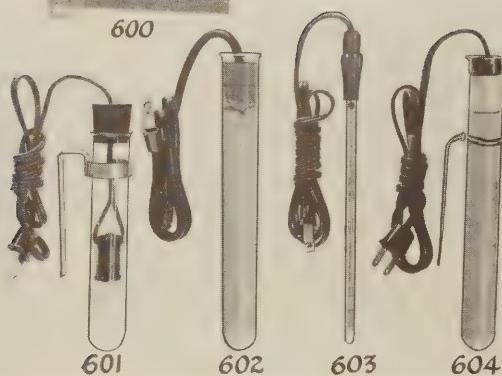

7" size for aquariums 5 to 8 gallons Price 2.50

9" size for aquariums 10 to 15 gallons Price 2.75

11" size for aquariums 15 to 25 gallons Price 3.00

14" size for aquariums 25 to 50 gallons Price 3.50

HEATERS

600

601

602

603

604

AQUARIUM HEATERS—as pictured above

601—Chill Breaker—A combination chill breaker heater, and aquarium light to heat and illuminate small tanks and bowls from 1 to 3 gallons. 6 watt bulb, low in operation cost. Comes with aluminum foil shade (not shown in picture) to control amount of light. Six inch glass tube; metal hanger. Price \$1.65

602—Barris Submersible Heater—This type heater may be completely submerged and placed on the bottom of the aquarium. Absolutely water proof; sealed with live rubber; heavy duty waterproof cord 36 inches long allows heater to lie in horizontal position on bottom of aquarium where the water is the coldest to give all over heat distribution

Price \$1.65

A good heater and thermostat is a small expenditure that will more than pay for itself by the fish that didn't die. Since most aquarium fatalities are caused by temperature fluctuations, a heater in cold weather is practically a must. Automatically controlled heaters are perhaps the greatest benefit ever devised for the tropical aquarium. For a healthy aquarium the water should be maintained at a temperature of at least 70° F. For spawning egg layers or nursing sick fish the temperature should be gradually raised to 80° or 85° F.

NOTE: A heater without a thermostat is not automatic. It will operate continually as long as it is plugged in or the electricity turned on.

All Heaters are guaranteed for one year—except against glass breakage.

We recommend the following size heaters for your aquariums:

THERMOSTATS

A thermostat will not heat the water. A thermostat is an electrically controlled automatic switch that will turn the aquarium heater on or off at whatever temperature it is set for, thus maintaining a constant water temperature. These thermostats we have listed are all precision instruments, laboratory tested, accurate within two degrees. All thermostats are guaranteed by the manufacturer.

PLEASE REMEMBER

A heater and thermostat is a precision instrument—and an electrical appliance. Treat it as such—use it, do not abuse it—and it will give you years of trouble free service. We list here a few "DON'TS" which if observed will prolong the life of your heating equipment.
DON'T—Allow water to get into tube of heater or thermostat.
DON'T—Remove heater from aquarium without first disconnecting it from the electric—allow it to cool off before removing or replacing.
DON'T—Put heater or thermostat in water if glass tube is cracked. If it is necessary to remove heater to clean aquarium, inspect the tube carefully for breakage.
DON'T—Connect thermostat units until metal thermal unit has adjusted itself to the water temperature. If moisture forms inside the tube from condensation, dry thoroughly before connecting.

626—Regular Simplex Heater and Thermostat Combination—Same dependable heater and thermostat as described but WITHOUT THE BUILT IN PILOT LIGHT.

| | |
|-------------------------------------|--------|
| 626 A—8" Pyrex tube, 25 watt..... | \$3.90 |
| 626 B—8" Pyrex tube, 40 watt..... | 4.45 |
| 626 C—10" Pyrex tube, 75 watt..... | 4.60 |
| 626 D—10" Pyrex tube, 100 watt..... | 5.00 |
| 626 E—12" Pyrex tube, 125 watt..... | 5.50 |

627—Deluxe Simplex Heater and Thermostat Combination

Here is heating efficiency at its best! Simple and space saving—single Pyrex tube contains both the heater element and thermostat with Radio and TV static eliminator—built in Pilot Light is the deluxe feature. When heater is operating the Pilot Light "glows" assuring you of its service. Coil type heating unit is practically everlasting. Guaranteed for one year.

| | |
|-------------------------------|--------|
| 627 A—8" tube, 25 watt..... | \$5.00 |
| 627 B—8" tube, 40 watt..... | 5.00 |
| 627 C—10" tube, 75 watt..... | 5.50 |
| 627 D—10" tube, 100 watt..... | 5.75 |
| 627 E—12" tube, 125 watt..... | 6.00 |

650—Short Simplex Thermostat—6" Tube—built-in radio and TV static and interference eliminator. 4½ foot lead cord and three way plug for pilot light or heaters in combination up to 300 watts. Thermostat has easily set, inside adjustment screw type control. Metal clip for fastening to side of aquarium.

(Pilot light, if desired, 35c extra) Price \$3.30

651—Long Simplex Thermostats—(Not Illustrated) Same thermostat as described in No. 650 with the exception that it is intended to be used in deeper aquariums—aquariums over 10 inches deep. 8-inch tube.

Price \$4.00

(Pilot light, if desired, 35c extra)

652—Duplex Thermostat—Designed for safety—two separate thermostats so arranged that if the one fails to shut off or turn on heater the other one will. Both units are adjustable—This added safety factor is all important to breeders or to aquarists who keep their fish in rooms with widely fluctuating temperatures. Built in radio and TV interference eliminator, 4½ foot lead cord, 2 way plug for heaters in combination to 300 watts and a pilot light. Two year guarantee.

Price \$6.25

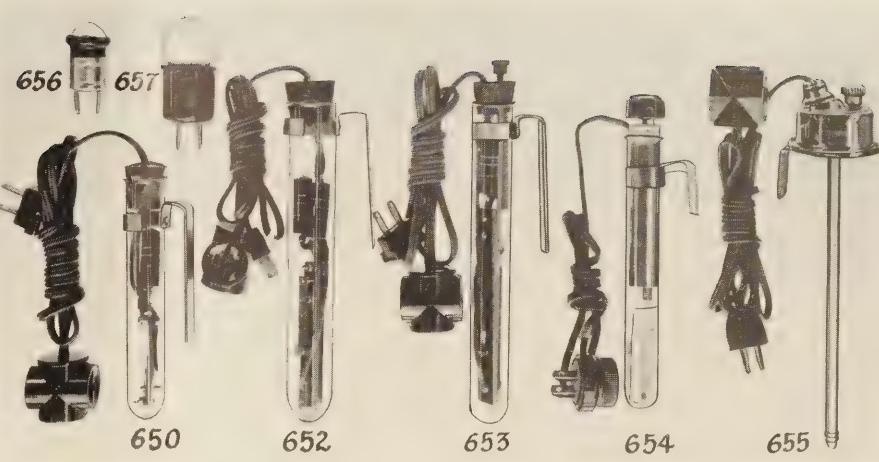

(Pilot light, if desired, 35c extra)

653—Outside Adjustment Thermostat—500 watt capacity—outside adjustment control knob permits easy accurate temperature regulation. Fine silver contact points assure long dependable service. 8 inch tube, metal hanger, 4½ foot lead cord, 2 way plug for heaters and pilot light. Two year guarantee.

Price \$5.65

(Pilot light, if desired, 35c extra)

655—1000 Watt Metal Outside Adjustment Thermostat—For those aquarists who have several tanks to heat here is dependable, thermostatic control for heaters in combination up to 1000 watts. Unbreakable metal tube unit assures longer life to fine metal points, outside adjustment

facilitates temperature regulation. Unit is small in size, diameter of metal tube is ¾ inch, length 10 inches.

Price \$7.50

(Pilot light, if desired, 35c extra)

654—Calsiat Calibrated Thermostat—Calibrated outside adjustment—easily read calibrations simplifies setting of thermostat—thermometer at bottom of unit makes two precision instruments for the price of one. Built in interference eliminator, Pyrex glass tube, 500 watt capacity, guaranteed for two years.

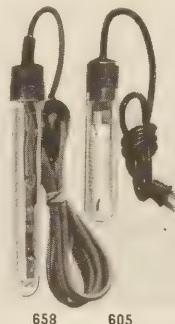

Price \$5.50

656—Pilot Light—A one piece unit that plugs into thermostat connection. When heater is on, the pilot light burns, when heater goes off, light also turns off. Makes thermostat adjustment simple, insures accuracy.

Price 35c

657—Pilot Light Bulb and Socket—Removable bulb and plug in socket, a longer lasting unit.

Price 35c

658—Es-Es Thermostat—5 inch tube—250 watt capacity. The unique snap action of this British made thermostat eliminates troublesome radio and TV static interference. Compact in size, dependable and accurate.

Price \$4.75

(Pilot light, if desired, 35c extra)

605—Es-Es Submersible Heaters—For the extreme in tidy, compact, completely submersible aquarium heaters these top quality British made units are supreme. Completely reliable, miniature in size, giants in performance.

25, 50, 75, 100, 150 watts—
(specify wattage) each \$2.75

(Note: If 1 pound only is ordered Pastel Sand can be sent parcel post with other merchandise.)

GRAVEL GUARDS

Gravel guards, or food guards, are useful as well as decorative in the aquarium. Primarily, they assist in the arrangement and aquascaping of the plants and show off the fish to a better advantage. If the gravel is placed higher in the back of the aquarium and sloped to the front most of the dirt and refuse in the aquarium will accumulate in front of the food guard and may be easily removed with a siphon or dip tube. Also, if a feeding ring is anchored to the glass with a suction cup holder over the open area formed by the gravel guard any excess food will drop into this open space and not drift between the gravel where the fish cannot find it.

All our gravel guards are handmade from natural slate, rocks, and minerals, that have been tested and found safe to use in the aquarium. These rocks are selected for their individuality of shape and color to provide an interesting and beautiful contrast with the plants in a natural setting.

GRAVEL GUARD WITH BRIDGE—Handmade from slate, natural rock and minerals, the rustic plastic bridge adds a decorative touch without detracting from the natural beauty of "Things Aquatic".

| | |
|--|---------------|
| BG 12 —12" long for aquariums 18" to 20" long | \$2.00 |
| BG 14 —14" long for aquariums 24" to 30" long | 2.25 |
| BG 16 —16" long for aquariums 30" to 36" long | 2.75 |

DELUXE GRAVEL GUARDS—Here is a food guard designed to add color as well as utility. Short pieces of slate form the angles with a grouping of harmoniously blended rocks in the center. Distinctive and different, this series of deluxe gravel guards make a beautiful center piece in the front of any aquarium.

| | |
|---|---------------|
| DXG 12 —12" long for aquariums 18" to 20" long | \$1.75 |
| DXG 14 —14" long for aquariums 24" to 30" long | 2.00 |
| DXG 16 —16" long for aquariums 30" to 36" long | 2.50 |

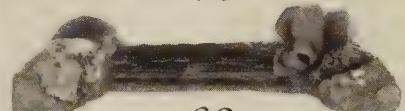

NATURAL LOOKING GRAVEL GUARDS—These guards with rocks on either sides of slate set in steps form a feeding area in the front of the aquarium and provide a natural decorative touch. Rocks are carefully selected so as not to detract from the "natural look" in your aquarium.

| | |
|--|---------------|
| GG 10 —10" long for aquariums 16" to 20" long | \$1.25 |
| GG 12 —12" long for aquariums 18" to 20" long | 1.50 |

| GG 16 —16" long for aquariums 30" to 36" long | 2.00 |

GRAVEL GUARDS FOR SMALL AQUARIUMS

Illustrated at bottom of photo these Gravel Guards are specifically designed for aquariums from 2 to 6 gallons in size. Handmade they are richly filled with small bits of rock and stone.

| | |
|--|------------|
| GG 1 —6 $\frac{1}{2}$ " long—3 $\frac{1}{4}$ " deep for aquariums 10" to 16" long | 50c |
| GG 2 —Same size as above—crescent shaped | 50c |

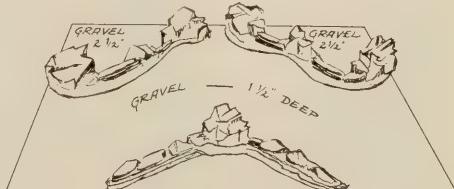

DELUXE TERRACE GUARD SETS

These 3-piece gravel guard sets are made for larger size "show tanks". The two terrace pieces that fit across the back are made to give two levels in the aquarium thus showing off all the plants to a better advantage. The piece across the front provides an open space for a feeding area. All are artistically hand made from natural rock and minerals that are not harmful to the aquarium.

PLEASE NOTE

WE DO NOT SHIP
TROPICAL FISH

We carry in stock at our plant, at all times, a complete variety of all the popular varieties and many of the more rare varieties of Tropical Fish. We sell Tropical Fish at our plant only.

Because of extremely poor service and improper handling of Tropical Fish shipments enroute, we have found it necessary to discontinue entirely, the shipping of Tropical Fish.

We have done so because of the needless aggravation caused our customers receiving shipments of Tropical Fish dead or sick on arrival.

We are proud of our merchandise, the plants and fish we grow here—we want you, our customers to receive our products in good condition, so that you will receive full value enjoyment in return for the money you spend with us.

Madonna and Child Figurine Each \$2.00

MADONNA AND CHILD

Fresh Living Beauty for Your Home or Office — Decorative Foliage Plants

You work better—feel better—think better—and you get more pleasure out of every day life when you live in the cool comfort of pleasant natural surroundings.

Decorative foliage plants give you this quiet, restful atmosphere. Their natural beauty and vigor relieve the harshness of walls and floors. Their living color adds a warmth of friendly feeling that can't be achieved with the colors of paint or cloth.

Be your own decorator—choose any one of these hardy foliage plants—select several for a colorful grouping to brighten up any room. All plants shipped are perfect specimens—chosen from our greenhouses and sent direct to you.

F 10 FICUS PANDURATA—Sometimes called the "Fiddle Leaf" plant—Large dark green banjo shaped leaves with pronounced veins. MEDIUM SIZE \$2.50.

PHILODENDRON—A group of tropical plants that have large heart shaped or arrow shaped leaves, sometimes cut or lobed at their margins, of leathery texture, and usually a rich green color. For decoration possibilities unlimited try a grouping of these hardy moisture loving decorative foliage plants. No doubt, the Philodendron plants are among the most widely used decorative plants. They need no direct sunlight to grow—require only average watering.

F 11 PHILODENDRON DUBIUM—Large gracefully indented leaves. Rich green color. MEDIUM SIZE \$1.50; LARGE \$2.50.

F 12 PHILODENDRON SELLOUM—No other plant achieves such an intensely tropical effect. A very rapid grower—leaves deeply cut dark green with slightly ruffled appearance. MEDIUM SIZE \$2.50; LARGE \$3.50.

F 13 PHILODENDRON HASTATUM—Large arrow shaped leaves—dark green—a very compact grower. MEDIUM SIZE \$1.50; EXTRA LARGE \$2.50.

F 14 PHILODENDRON PERTUSUM—One of the most popular of all decorative plants. Sometimes called the Swiss Cheese plant because of its large cleft leaves with round cut out along the mid rib of the leaf. MEDIUM SIZE \$2.50; LARGE \$3.50.

F 21 PHILODENDRON CRESTOFOLIUM (Not Illustrated)—Dark green, indented leaves. MEDIUM SIZE \$1.50; LARGE SIZE \$2.50.

F 24 PHILODENDRON GLORIOSO—A new variety with "heart shaped" leaves, of velvety green. MEDIUM SIZE \$2.50.

DIEFFENBACHIA—Native of South America and the West Indies, the plants of this family rank high on the list of indoor decorative foliage plants.

F 15 DIEFFENBACHIA RUDOLPH ROEHRIS—Large paddle shaped leaves, yellow edged with green and marked with ivory. \$1.50 each.

F 22 DIEFFENBACHIA PICTA BAUSEI—(Not Illustrated)—Green, paddle shaped leaves with white striping. \$1.00 each.

F 16 DRACAENA WARNECKI—A spectacular tropical plant—large elliptical shaped leaves on rather long stems. Strikingly marked leaves have green and white stripes running lengthwise. \$1.50 each.

F 23 DRACAENA EUGENE ANDRE—(Not Illustrated)—A gorgeously colored variety with intensely colored rosy crimson leaves. \$2.50 each.

F 17 FANCY LEAF CALADIUMS—We have three different types—green with white variegation in leaves, green and pink with white variegation, and one with green, white and red variegation in the leaves. These plants are grown easily from bulbs in moist sand. LARGE BULBS—3 for \$1.00. COMPLETE DIRECTIONS INCLUDED.

F 18 CROTONS—ASSORTED VARIETIES—No doubt the most colorful of Tropical Foliage plants. In no other group of plants will you find such a variation of colors and leaf forms. Each plant will have several different color variations in a single leaf with no two leaves having the same exact variegation. MEDIUM SIZE PLANTS 75c each. A COLLECTION OF FIVE CROTONS, ALL DIFFERENT, \$2.75.

F 19 CHINESE EVERGREEN (AGLONEMA)—Can be grown in water without soil like an ivy—has rich green leaves with a shiny leather like texture. 50c each.

F 20 DIEFFENBACHIA PICTA—Waxy green leaves with white blotches. \$1.00 each.

TRY YOUR HAND MAKING THESE DRIED PLANT ARRANGEMENTS

You don't have to have a "green thumb" for this type gardening! Exciting to work with, easy to use, these dried plant materials have many uses in modern arrangements and decorating. The dish gardens pictured at the right illustrate the different types of material we have for you. A dish garden arrangement is but one of the many ways this dried plant material can be used. Elsewhere in our catalog we have combined the dried plants with live plants with a startling effect; for a different table decoration use these dry materials with seasonable fruits or flowers. Let your imagination run wild—there is no end to the decorating possibilities.

NATURAL DRIED PLANT MATERIALS FOR DISH GARDENS AND ARRANGEMENTS

NO. 14 SILVER SAGE—4 for 25c.

NO. 15 DIO ROSETTE—EACH 35c.

NO. 16 LION TAIL—4 for 25c.

NO. 17 WOOD ROSES from Hawaii. EACH 35c—3 for \$1.00.

NO. 18 LIPSTICK PODS—from Hawaii—EACH 35c.

NO. 19 BLACK GRASS—from Hawaii—5 for 35c.

NO. D 140 FLAMINGO PLANTER—Nature is full of the strange and the fantastic; we have captured this bizarre combination and have added the graceful Flamingo figurines for charm and color. For beginner or expert, our selection of the following dried materials used in this arrangement are easy to work with and pleasing to the eye. Left to right as illustrated in the photograph: No. 1 Fan-tozma Palm Hearts, No. 8 Cholla Wood, No. 2 Agave Bud Clusters, No. 4 Primrose Center, No. 6 Delgit Streamer—each piece carefully selected as to size and shape to fit this bowl and planting arrangement.

NO. D 140 FLAMINGO PLANTER—with (1) Flamingo
on the Wing, complete as illustrated \$2.30
Specify color of bowl—Green or White

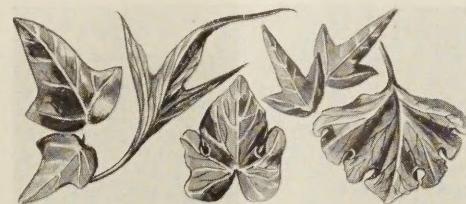

NO. 104 Bowl Only—Green or White \$1.00
Flamingoes—Standing 35c; On the Wing 45c; Bending 35c;
Set of all three \$1.00

NO. D 142—FIRE FLY PIXIES—Here is another delightful arrangement of dried plant materials. Use it as a center piece on your table, or a sure fire conversation piece anywhere in the home. Dried materials included in this group are as follows: Palm Heart, Sea Fans, Cholla Wood, 12 as sorted Black Grass & Sage, Lip Stick Pods, Baby Wood Rose, Wood Rose, Yucca Pods, Chart Moss, Agave Clusters, Screw Bean Pods. Leaf shaped Haeger Bowl is 12" long, 6" wide, 1½" deep, colors White, Blue, Ox Blood. As cute as a bug! The little children figurines have a "Hummel" look and a lady bug on each. Two are included with the dish garden, or they may be ordered separately.

NO. D 142—FIRE FLY PIXIE GARDEN—Complete as
illustrated with two figures \$5.50
Specify color of bowl—White, Blue, Ox Blood

NO. 142 Bowl Only—White, Blue, Ox Blood \$1.50
Fire Fly Pixies—25c each; SET OF SIX—\$1.25.

NEW IVIES

H-36 H-37 H-38 H-31 H-39

Here we have listed some of this year's finest Ivies. All are beautiful hardy plants that will grow and flourish under most home conditions.

As illustrated:

H-36 FANNETTE—Picturesque, fan-shaped leaves, with eyeletted perimeter forming fluted scallops—35c.

H-37 EMERALD JEWEL—A dwarf ivy, three pointed leaves. Rich forest green color, a vigorous grower—35c.

H-38 ABUNDANCE—Heart shaped leaves, delicate looking foliage, heavily veined. Low growing and bushy, a perfect plant for dish gardens—35c.

D 140

D 142

H-31 GREEN SPEAR—Very showy, foliage is heavy and stocky, dark green in color, leaves have definite slender spear shape—35c.

H-39 SYLVAN BEAUTY—Waxy, dark green, arrowhead shaped leaves, short stemmed bushy grower—35c.
OTHER OUTSTANDING IVY VARIETIES NOT ILLUSTRATED:

H-1 ENGLISH IVY (*Hedera Helix*). For the border where it is a bit shady. Alternate dark green leaves. Each 20c.

H-3 SELF BRANCHING IVY (*Hedera Pittsburgh*). Grows with new branches forming at the base of the leaves. Each 25c.

H-6 LEOPARD IVY (*Hedera Colchica Variegata*). Leaves are deep green with tiny white dotted coloring on the surface of the leaf. Each 35c.

H-20 MANDAS CRESTED IVY. A compact trailing plant—Beautiful large celophane green wavy leaves—distinctly different—one of those "must have" varieties. Each 50c.

H-23 NEEDLE POINT. Dainty little leaves—growing close together, self-branching, makes it desirable for the home. Each 35c.

CACTI

Below we have listed the hardiest and most unusual varieties of cacti we can find, many are old favorites, others are new and more rare varieties. Cacti are easy to grow under ordinary household conditions. For an unusual and extremely decorative effect we suggest a "Cactus Terrarium"—for a touch of realism add any of the miniature dish garden ornaments we list in this book.

Moisture Loving Plants

FOR SOIL-LESS GARDENING—A modern idea—a companion thought to the ever popular dish garden. Style your SOIL-LESS garden to harmonize with the interior of today's functional living room. All you need to create an interesting scene is a container that will hold water and plants. Fashion it to suit your own fancy using drift wood, or cork bark, highly colored rocks, Leichens or sheet moss. Top it off with a colorful miniature figurine or dish garden ornament—finish it with colored sand.

M-3 NEPYHTIS—Green Spear shaped leaves—25c each.

M-4 PHILODENDRON CORDATUM—a rapid grower—25c.

M-5 POTOS AUREUS—25c.

M-7 SILVER MARBLE POTOS—50c.

M-14 VARIEGATED NEPYHTIS—(PATENTED "TRI-LEAF WONDER")—50c.
